F.W.KELSEY NURSERY COMPANY
150 BROADWAY NEW YORK
TREES AND HARDY PLANTS FOR ALL PURPOSES

WHAT THIS COMPANY IS.

It is amply responsible for all obligations and it pays cash for all its supplies.

It contracts for its nursery stock with a large number of expert and reliable growers and has stock specially grown for its own business.

It furnishes in this way, the best stock in specimens and in all sizes and varieties obtainable in the United States and in Europe.

It thus sells to its patrons this almost unlimited selection of inspected stock, the best the domestic or foreign markets afford, at lowest current prices and not at nursery prices plus a commission.

It has the facilities for maintaining accuracy, reliability and dispatch in the conduct of its business which many years of experience commands.

WHAT THIS COMPANY IS NOT.

It is not, in any sense, the agent of any nursery whatsoever.

It is not a brokerage establishment representing nurseries or acting for the account of any nursery or nurseries whatever.

It is not a nursery claiming to have everything, when, as now, the varied demand for fine trees and hardy plants makes it necessary to have selections from many sources in order to fill to the best advantage the present requirements for this stock.

It does not endeavor to enlarge its business by trying to pull others down.

It does not claim to do everything.

But it does make a specialty of furnishing large planting lists complete; of furnishing its specialties—such as hardy Rhododendrons, Rhododendron Maximum and Kalmia Latifolia in car lots, Specimen Trees, Bay Trees, Trained Fruit Trees and Foreign Grape Vines, Forestry Material per 100,000 and many other things on specially favorable terms; and always endeavors to extend to its patrons courteous and prompt service.

BUSINESS TERMS.

Early orders are advantageous, securing first selection, complete assortments and special prices.

Quality we consider of first importance; and of equal importance reasonable prices.

Prices unless otherwise noted or specially quoted are f. o. b. delivery New York, not including the actual cost of cases or bales used in packing.

Samples afford an effective and inexpensive way for selecting satisfactory stock up to any required standard. These samples we submit under specific guarantee that the entire stock will be equal in quality and condition. Inspection, however, can be furnished in nursery when preferred.

Substitution—When varieties are exhausted, we shall in the absence of advices, exercise our best judgment as to sending equally good substitutes.

Errors—Should any errors occur, we should be advised promptly within ten days after receipt of goods.

Gardeners—There is little pleasure in a country place without an efficient and satisfactory superintendent or gardener in charge. We have a list of the men available and a system of confidential information we use before recommending anyone for these positions. There is no charge for this service.

Landscape plans—We consider a carefully worked out planting design for a new country place or park before the work on the grounds is begun, as important as suitable architectural plans for the buildings. Errors of this kind are costly and difficult to rectify afterwards, always visible and a constant offense.

We are conversant with much of the best landscaping in this country and in Europe and can arrange for expert service by competent landscape architects on reasonable terms. We invite consultation and no obligation is in any way incurred without a definite contract.

F. W. KELSEY NURSERY COMPANY

150 BROADWAY, NEW YORK

TELEPHONE 2123 CORTLANDT

CABLES, KELNURCO, NEW YORK.

THIS ABRIDGED CATALOGUE CONTAINS ONLY OUR LEADING VARIETIES AND SPECIALTIES.

Campestris. ENGLISH ELM. \$1 to \$2.

Camperdown Pendula. An effective tree. Large leaves; picturesque drooping habit. \$1 to \$2.

Large Trees For Immediate Effect

While everyone recognizes the desirability of securing planting and foliage effects without loss of time, yet, from an extended observation and experience, we do not recommend moving large trees unless the work can be accomplished with proper appliances and efficiently done, with full ball of earth. Otherwise, the results are not likely to prove as satisfactory as in the use of trees of size more readily moved and successfully transplanted.

We can, however, furnish some of the varieties of larger size trees, up to 4 inch to 6 inch caliper trees, that can be safely moved without balls and successfully transplanted.

Prices and particulars on application.

Small Trees For Planting In Nursery

Where future planting is required, these small trees are desirable in point of economy, increasing rapidly in value each year.

We furnish this stock in the leading varieties of Deciduous Trees, two to six feet high, and of Evergreens, principal varieties one to two feet, from \$8.00 to \$20.00 per hundred, \$75.00 to \$150.00 per thousand according to sizes and varieties. All transplanted healthy vigorous stock.

With rows 4 to 6 feet apart, from 4,000 to 6,000 of these trees can be advantageously planted per acre. For Collected Native Trees, Shrubs and hardy Perennials see page 11.

Forestry Stock

In order to meet the rapidly increasing demand for forestry material, we are making this class of stock a specialty. We have spared no effort to make this Company headquarters for every variety of this stock. As a result, we are in closest touch with the entire market, both in the United States and abroad, and have, therefore, exceptional facilities for furnishing all sizes and quantities required.

Both seedlings and transplants, one, two, three and four year stock of the leading varieties are furnished per 10,000 and per 100,000, or in any quantity desired, and at lowest current prices.

The following are the principal varieties.

Abies Balsamea. BALSAM FIR. **Abies Alba.** WHITE SPRUCE. **Picea Excelsa.** NORWAY SPRUCE.

Pinus Austriaca. AUSTRIAN PINE. **Pinus Strobus.** WHITE PINE. **Pinus Sylvestris.** SCOTCH PINE.

Larix. LARCH.

Seedlings in surplus by the millions at very special prices of BALSAM FIR, LARCH, NORWAY SPRUCE, SCOTCH PINE and WHITE PINE.

Of deciduous varieties, **Betula Alba;** **Catalpa Speciosa;** **Fagus,** BEECH; **Fraxinus,** AMERICAN ASH; **Juglans,** BLACK WALNUT; **Populus,** CAROLINA POPLAR; **Ulmus,** AMERICAN ELM; and other varieties, one year and up or one foot and more, per thousand and per ten thousand at reasonable prices.

To insure the selection and quantities of forestry material required, orders should be entered as far in advance of the shipping season as possible before varieties are exhausted

Fine Hardy Evergreens

The following are some of our leading varieties all properly transplanted. Many remove with ball.

We recommend May and August as the most favorable time in ordinary seasons for transplanting evergreens, and that roots of trees for August planting be put up with ball and burlap. This service is charged for at cost.

We can furnish EXTRA SPECIMENS of many varieties, several times transplanted, each with ball and very valuable for immediate effect. Particulars and quotation on request.

Forestry Evergreens see page 5. Hedge plants see pages 10 and 11.

ABIES (PICEA) CANADENSIS. COMMON HEMLOCK. Hedge plants; 1 foot to 5 feet. Also specimens in all sizes.

Excelsa. NORWAY SPRUCE. Fine stock in all sizes from 1½ to 6 feet; extra specimens up to 15 feet. Send for quotation.

Abies Alba. WHITE SPRUCE, **Douglasii, Orientalis**, and other kinds of Spruce in a fine collection and various sizes, including specimens. \$1 to \$2, and up.

CEDRUS ATLANTICA. MT. ATLAS CEDAR. The hardiest of the true Cedars; delicate leaves of steel-blue tint. \$1.50 to \$2.50.

Atlantica Glauca. One of the most rare and beautiful evergreens; silvery foliage. \$2 to \$5.

Deodora. Majestic, pyramidal form. A beautiful tree for lawns. Not entirely hardy north of N. Y. \$2 to \$3.

Libani. CEDAR OF LEBANON. Very choice; lustrous dark green foliage. \$2 to \$3.

JUNIPERUS AUREA. GOLDEN JUNIPER. Beautifully gold-marked foliage; dwarf spreading habit. \$1 to \$2.

Prostrata Sabina. TRAILING JUNIPER. Fine for massing; low spreading growth. 50 cts. to \$1. Low prices per 100.

Virginiana. RED CEDAR. Upright columnar habit and beautiful in color of foliage. All sizes from 2 feet to 20 feet, including large specimens that remove with ball for immediate effect. Prices on application.

PICEA CONCOLOR. SPRUCE. Large broad silvery leaves. Stately habit. Very fine. \$2 to \$5.

Nordmanniana. NORDMANN'S FIR. Horizontal branches; rich dark green foliage. \$1.50 to \$5.

Picea Pungens Glauca. COLORADO BLUE SPRUCE. The "true blues" of this variety are generally admitted to be the most strikingly beautiful of all the really hard Coniferae. The trees are easily grown, transplant successfully, and are hardy everywhere. The steel-blue color gives this variety its peculiar charm. Always a marked object in lawns or landscape. Fine, transplanted specimen trees of the real blue color, 18 inches to 6 feet, \$1.50 to \$15 each. Fine trees, not selected color, 1.50 to \$5. See page 5.

Picea Pungens Glauca Kosteriana. KOSTER'S BLUE SPRUCE. Beautiful steel-blue color. A

distinct type with intense silvery foliage. \$5 to \$10.

Picea Kosteriana Pendula. KOSTER'S WEeping BLUE SPRUCE. The type of the former but with drooping branches. Very rare. \$5 to \$10.

PINUS AUSTRIACA. AUSTRIAN PINE. **Pinus Cembra.** STONE PINE. **Pinus Mughus.** DWARF MUGHO PINE. **Pinus Strobus,** WHITE PINE. **Pinus Sylvestris.** SCOTCH FIR.

These and other Pines in fine healthy stock in various sizes. 50 cts. to \$1 and up, according to grade. Low prices in quantity. Extra specimens of WHITE PINE, 5 feet to 10 feet, each with ball and burlap. Special prices per dozen, also per 100. See Forestry Stock page 5.

RETINOSPORA FILIFERA. THREAD-LIKE JAPAN CYPRESS. Beautiful tree of elegant form. Bright green foliage; drooping branches. 75 cts. to \$2.

Pisifera. Delicate branches; fine feathery foliage. \$1 to \$2. Specimens, \$3 to \$5.

Plumosa. PLUME-LIKE CYPRESS. Very graceful habit. 50 cts. to \$2. Specimens, \$3 to \$5.

Plumosa Aurea. GOLDEN JAPAN CYPRESS. Foliage tipped golden yellow; compact symmetrical form. 50 cts. to \$2. Specimens \$3 to \$5.

Squarrosa. Foliage possesses a silvery green tint. Very effective. 50 cts. to \$2. Specimens \$3 to \$5.

SEQUOIA WELLINGTONIA. Big Tree of California. The hardy species; compact habit. \$2 to \$5.

SCIADOPITYS VERTICILLATA. UMBRELLA PINE. Unique and unlike any other variety. Very long and wide leaves which grow in parasol-like whorls and give the tree a distinct individuality; perfectly hardy. \$2 to \$10.

TAXUS. YEW. Fine plants of the leading varieties. **Baccata,** English Yew; **Canadensis,** CANADIAN YEW; **Repens,** SPREADING YEW. \$1 to \$2. Low prices per 100.

THUYA OCCIDENTALIS. AMERICAN ARBOR VITAE. The best hardy evergreen for hedge. All sizes, including large specimens, at low prices.

TSUGA, HEMLOCK. See ABIES.

Evergreens for Forestry Planting, see page 5.

Rhododendron Punctatum. A Southern species; pale rose spotted flowers very early in Spring. \$5 to \$10 per dozen.

Rhododendron Hardy Seedlings. Assorted colors; good bushy transplanted plants from \$50 to \$100 per 100.

BORDERS OF HARDY HYBRID RHODODENDRONS

RHODODENDRON CATAWBIENSE, HARDY HYBRIDS. These superb plants are indispensable in giving effectiveness and character to the planting of all ornamental grounds. In solid masses and borders they are incomparably fine. They are easily grown. Although adapted to a shaded situation, they will flourish in any good loamy soil, moderately enriched with well-rotted leaf mould, cow manure or well-rotted sod. The plants should be arranged in good sized beds or masses, and, when first planted, set closely together. The beds or borders should be deep, and the plants mulched or otherwise kept in moist condition at the roots. It is DROUGHT in most cases that injures the plants not so much the cold weather, as is generally supposed. The seed pods should always be removed after flowering. Our plants this season are usually fine, and of the *strictly hardy varieties for this climate*. We offer them, in CASE COLLECTIONS OF 25, 50 AND 100 PLANTS TO THE CASE. *These cases contain a choice selection of the best hardy named varieties of assorted colors for group or mass planting, for immediate effect.* Particular varieties can be supplied by the hundred or thousand at lowest prices for well-budded, reliable plants. These are the cheapest and best. There is no experiment in trying them. They bloom nicely the first season. Many foreign plants sold in this country, owing to lack of hardiness, are almost worthless. Thousands of such plants are sent out every season. They are wholly useless for planting in the Central, Middle or New England States. This accentuates the importance of obtaining from responsible, reliable houses the really hardy Catawbiense varieties, such as are here offered, and which always give satisfaction. The case collections referred to above will be furnished at the hundred price.

LEADING VARIETIES. Abraham Lincoln, Album Elegans, Atrosanguineum, Blandyanum, Boule de Neige, Caractacus, Charles Dickens, Charles Bagley, Delicatissimum, Everestianum, General Grant, Giganteum, Gloriosum, H. H. Hunnewell, Kettledrum, Lady Armstrong, Michael Waterer, Mrs. Milner, President Lincoln, President Roosevelt, new, intense red, fine, Purpleum Elegans, Roseum Elegans.

Bushy budded plants, several times transplanted, each with ball, 12 inches to 18 inches \$10.00 per dozen. \$75.00 per 100.

18 inches to 24 inches, \$15.00 and \$18.00 per dozen., \$100.00 and \$125.00 per 100.

2 feet to 3 feet \$20.00 to \$30.00 per dozen. Specimens \$3.00 to \$10.00 each and upwards.

RHODODENDRON MAXIMUM. Great Bay. The large bold foliage of this hardy native species with the pinkish white flowers in large clusters in early Summer, make this one of the most useful and satisfactory of all hardy shrubs. We have very fine bushy plants of all sizes, nearly as broad as high from 2 feet up to grand specimens 10 feet or more, and each put up with ball. Assorted sizes we furnish in carlots or per ten car lots at special prices.

Send for quotation for sizes and quantities required.

RHUS. SUMACH. Copallina, Cotinus, Glabra, Typhina, and other varieties; different sizes. Low prices in quantity.

RIBES Aureum, and Sanguineum. The yellow and crimson flowering currants respectively. \$4 per dozen.

We furnish fine stock of all the following small fruits at reasonable prices:

Blackberries: EARLY HARVEST, ELDORADO, KIT-TATINNY, LAWTON, RATHBUN, SNYDER, WILSON'S EARLY, and others. Strong well rooted canes. \$5 to \$10 per 100.

Currants: BLACK CHAMPION, CHERRY, FAY'S PROLIFIC—largest and best red currant; LA VERSAILLES, PERFECTION, RED DUTCH, VICTORIA, WILDER, WHITE GRAPE.

Selected 2 years, 3 years, and Extra \$1 to \$2 per doz. \$8 to \$15 per 100.

Gooseberries: Best American varieties. CHAUTAUQUA, COLUMBUS, DOWNING, HOUGH-

TON, RED JACKET, SMITH'S IMPROVED. \$1 to \$2 per doz.

English Varieties: CROWN BOB, INDUSTRY, WHITESMITH. \$2.50 per doz.

Raspberries: Black varieties. BLACK DIAMOND, COLUMBIAN, GREGG, MAMMOTH CLUSTER, MARLBORO.

Red Varieties. Cumberland, Cuthbert, Marlboro.

Yellow Raspberry: GOLDEN QUEEN. Strong Canes \$5 to \$10 per 100.

Strawberry Plants

We recommend the following as the best strawberries for the home garden.

Pot grown plants set in Summer or early Autumn, bear well, with ordinary treatment the following season.

Early Sorts: CLIMAX, EXCELSIOR, FAIRFIELD, MARSHALL, MICHAEL'S EARLY, SUCCESS.

Mid-Season Sorts: ABINGTON, BUBACH, GLEN MARY, KEVITT'S WONDER, NEW YORK, NICK OHMER, SHARPLESS, WM. BELT.

Late Sorts: BRANDYWINE, CARDINAL, COMMONWEALTH, GANDY, MCKINLEY, OOM PAUL.

Layer Plants \$1.00 to \$2.00 per 100. Well established pot plants \$3.00 and \$4.00 per 100.

Esculent Roots

ASPARAGUS: A good Asparagus bed is a garden luxury. When once well established, a well made bed lasts for years. Plants for best results should not be more than 2 or 3 years, and Spring is the best time for transplanting. The best varieties: CONOVER'S COLOSSAL, COLUMBIAN, MAMMOTH WHITE, GIANT, PALMETTO. Strong 2 and 3 year roots. \$2.00 to \$3.00 per hundred.

RHUBARB: This "American Pie Plant" is as easily grown as weeds. Leading varieties: EARLY CRIMSON, LINNÆUS, QUEEN VICTORIA. Strong roots \$2.00 per dozen.

Lawn and Field Grass Seed

It is of the utmost importance that all grass seed should be fresh seed and of the very best quality and condition.

Our special mixtures for Lawns, Golf Links and Tennis Courts are unsurpassed in quality or in low cost compared with the splendid effects produced the first season.

These extra choice mixtures \$4.00 per bushel.

Choice mixtures, superior quality seed, \$3.50 per bushel.

New Lawns require from 5 to 6 bushels per acre. Renovating old lawns 1 to 2 bushels per acre.

Farm grass seeds, recleaned, of best quality Red and White Clover, Bent Grass, Kentucky Grass, Fescue, Orchard Grass, Red Top, Timothy, etc., per bushel and per hundred lbs. at current prices. Send for quotation.

Seven Incomparable Novelties

AZALEA HINODIGIRI. A grand new variety somewhat resembling Azalea Amoena but having much larger foliage and far more brilliant flowers, the color a striking shade of bright red or carmine pink covering the plant with a solid mass of the most brilliant colored flowers in May. This with the effective evergreen foliage and compact habit makes this a superb variety and one of the very finest hardy shrubs recently introduced.

Specimen plants full of buds 2-3 feet \$10.00 per pair, \$50.00 per dozen.
18 x 18 inches broad, full of buds, \$6.00 per pair, \$35.00 per dozen.
Fine bushy plants 12 to 14 x 12 inches well budded \$18.00 per dozen.

AZALEA KOSTERI. One of the most showy and effective hardy shrubs of recent introduction. The flowers are an intensely bright yellow and appear in wonderful profusion when in bloom, covering the entire plant with a solid golden color.

Fine well budded plants \$18.00 per dozen.

AMPELOPSIS VEITCHI PURPUREA. An entirely distinct variety of the Ampelopsis Veitchi type with extra large leaves of a decidedly bluish tint; vine of vigorous and compact habit.

A distinct and valuable variety, perfectly hardy and preferable in many ways to Ampelopsis Veitchi or any other of the Ampelopsis or clinging vine species.

Strong plants 4-5 feet, \$10.00 per dozen.

First size 2-3 feet plants, \$12.00 per dozen.

Special prices per hundred.

HYDRANGEA ARBORESCENS GRANDIFLORA ALBA. A long name but a grand shrub of the "best ever" class. Hardy and a great acquisition. For all purposes, one of the most valuable of hardy shrubs.

Flowers in broad trusses, of the largest size, entirely lacking in coarseness those of the Paniculata Grandiflora variety are of pure snow white color and the shrub is literally loaded with blooms, more than 200 trusses having been counted on a single plant.

So strikingly beautiful are these flowers in contrast with the fine foliage and long period of blooming that the variety has been appropriately described "Hills of Snow" and the "American Everblooming Hydrangea."

The period of blooming is from June to September, the flowers appearing four to six weeks earlier than those of the Paniculata Grandiflora.

This variety will, we believe, soon attain great popularity. The plants are exceedingly floriferous, blooming abundantly the first season. They are easily transplanted and being easily grown are adapted to border, group or mass planting in every and all locations. We have very fine stock of well rooted plants.

Extra size 3 to 4 feet, \$3.00 per pair, \$15.00 per dozen; 2 to 3 feet, \$10.00 per dozen; 1 to 2 feet, \$5.00 per dozen.

Special prices per hundred.

LIGUSTRIUM AUREUM ELEGANTISSIMA. The habit of growth of this variety is more dense than the Ovalifolium, is as easily transplanted and the foliage is a most beautiful golden yellow the entire season.

For color the best variety of all the yellow foliage shrubs. Also distinct for hedging purposes.

Well rooted plants of different sizes \$3.00 to \$7.50 per dozen. Send for prices in quantity.

PICEA PUNGENS KOSTERIANA PENDULA. The foliage of this variety has the beautiful silvery tint of the true Kosteriana blue Spruce with a distinct weeping habit as marked as the common weeping Spruce or *Fagus Pendula* the Weeping Beech.

This variety like the upright Kosteriana Spruce is also perfectly hardy and easily grown. A novelty of merit.

Fine well rooted trees from 18 inches to 3 feet from \$3.50 to \$7.50 per pair.

ROSA VEILCHENBLAU. BLUE RAMBLER ROSE A blue rose has been considered as improbable as was Peary's achievement in reaching the North Pole. The long looked for ideal of the Horticulturist has been realized in this novelty, from Germany. It has been tested sufficiently to prove its entire hardiness. Habit and rapid growth similar to Crimson Rambler, with large flowers in clusters and of a distinct violet blue color with yellow stamens. The plants are, like the other ramblers, very floriferous, even young plants blooming with great profusion.

We are able to furnish a limited number of this unique novelty, strong plants from open ground \$3.00 per pair, \$15.00 per dozen. From 2½ inch pots, \$1.50 per pair, \$7.50 per dozen.
